

# PROJECT PROFILE

**Project:** Protection of a highway bridges and overpasses, **Poland**

**Designer:** Ministry of Transportation, Poland

**General Contractor:** Various contractors depending on project.

**Sub-contractor:** Various sub-contractors depending on project.

**Gemite product:** **Tuff-Flex**

**Objective:** the protection and water-proofing of new and repaired reinforced concrete bridge structures. The highly flexible coating **Tuff-Flex** spans fine cracks and provides an effective protection barrier against water and carbon dioxide. **Tuff-Flex** has been used in Poland in this application since 1996 and by 2003 there have been more than three hundred bridge structures protected with this superior, long lasting coating. The site-proven "life span" of **Tuff-Flex** on projects in Canada is in excess of 25 years.
